HAKKIMIZDA

PARKPLAST, plastik kalıp sektöründe 25 yıllık tecrübeye sahip uzman mühendis ve teknikerlerden oluşan ekibiyle İkitelli O.S.B.'de 1000 m² kapalı alanda müşterilerine yenilikçi hizmet anlayışıyla hizmet vermektedir. Sektörün geleceğine dair planladığımız hedef ve projelerimizle kurumsal gelişimimizi her geçen gün güçlendirerek faaliyet gösterdiğimiz alanda sadece kalıp değil; kalite, güven ve müşterilerimiz için çözüm üretiyoruz.

ABOUT US

PARKPLAST is operated full-service plastic molding manufacturer and renders services to her clients with an innovation mentality by her team of 25 years experienced and dedicated senior engineers and technicians at İkitelli Organized Industrial Zone in a 1000 m² covered area. We provide solutions, build trust as well as manufacturing quality plastic molds by enhancing our corporate improvement day by day with the projects and aims for the future of the field we operate in.

Neler Yapıyoruz ?

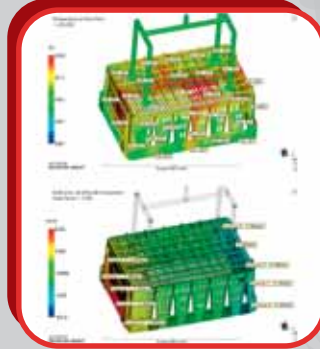

What we do ?

≡ Tasarım & Mühendislik

Design & Engineering

Tasarım sürecinde müşterilerimizin istek ve görüşlerini alarak tamamen müşterilerimizin beklentileri doğrultusunda inovatif çözümler sunmaktayız.

During the design process regarding in the direct of our clients expectations and request of our clients we present innovative solutions to worthful customers.

≡ Kalıp Üretim

Mold Production

Müşterilerimizin üretim hızlarının artırılması, düşük bakım maliyetleri sunan kalıplar üreterek, koşulsuz müşteri memnuniyeti sağlıyoruz.

We provide unconditional customer satisfaction by increasing the production speed of our customers and producing molds that offer low maintenance costs.

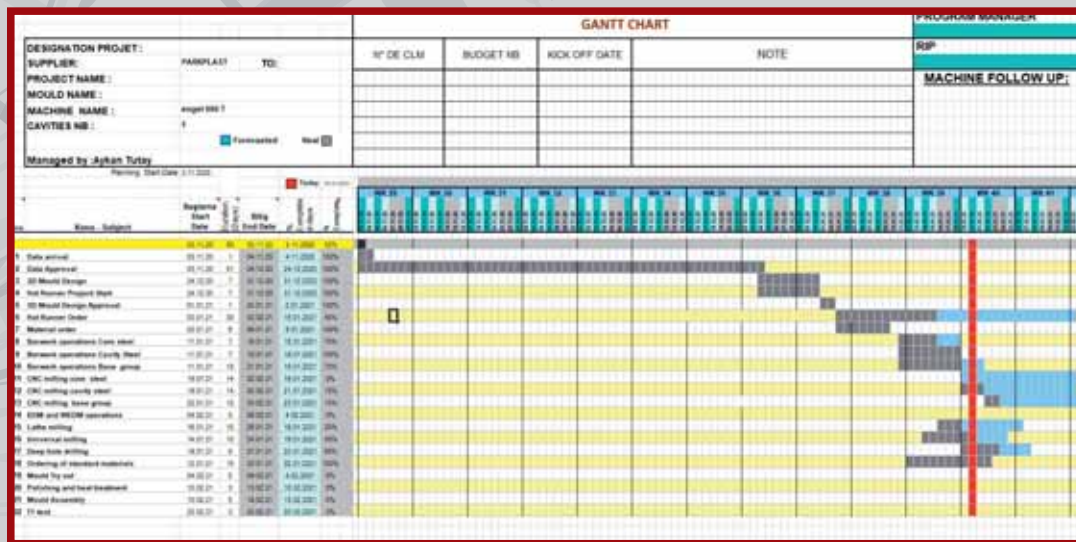

/// Proje Yönetimi

Project Management

PARKPLAST, müşterilerinin kalıp imalatı konusundaki tüm ihtiyaçlarına cevap verebilen her türlü teknik ekipman, yazılım ve mühendislere sahip deneyimli bir proje yönetim firmasıdır. Proje Yönetimi, zaman, maliyet ve teknik durumları dikkate alarak, projenin en etkin şekilde tamamlanmasını hedeflemektedir

PARKPLAST is an experienced project management company having all technical equipment, software and engineers capable of responding to all needs of its customers regarding mold manufacturing. Project Management aims to complete the project in the most efficient way, taking into account time, cost and technical conditions.

Kalıp Deneme

Mould Trial

Kalıplarımız çeşitli kapasite ve boyutlardaki enjeksiyonlarda seri üretime uygun koşullar altında test edilir. Yapılan her deneme için firmamız tarafından raporlar hazırlanmaktadır.

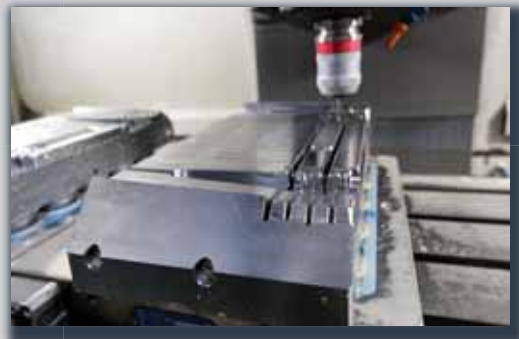

Our moulds are tested under conditions suitable for mass production in trial injections of various capacity and dimensions. Reports are prepared by our firm for each trial made.

CNC İşleme Merkezleri / CNC Machining Center

- 1 Çift kolonlu işleme merkezi / Double Column **AWEA-VP2012** | 2000x1200x760mm / 5.600 rpm
- 1 İşleme merkezi / Machining center **FINETECH -1270** | 1200x700x700mm / 12.000 rpm
- 1 İşleme merkezi / Machining center **TAKUMI -1052** | 1060x520X610mm / 12.000 rpm
- 1 İşleme merkezi / Machining center **KITIGAWA -1160** | 1100x600x600mm / 10.000 rpm
- 1 Yüksek hız işleme merkezi / High-Speed **HUMMER-650** | 500x600x260mm / 24.000 rpm
- 1 Yüksek hız işleme merkezi / High-Speed **GOLDSAN-650** | 500x600x260mm / 24.000 rpm

CNC Derin Delik Delme/ CNC Deep Hole Drilling

- 1 CNC Derin Delik İşleme merkezi / Deep Hole Drilling **JOINT 1300** | 1300x1300x1300 / 7.000 rpm

Üniversal Tezgahlar / Universal Machines

- 1 Yüzey taşlama / Surface Grinding **ELB** | 800x600x300mm
- 1 Yüzey taşlama / Surface Grinding **ELB** | 600x500x250mm
- 1 Torna / Lathe **TOSS** | 1000mm
- 1 Freze / Milling **GENTIGER** | 750x400x440mm
- 1 Radyal matkap / Radial Drilling **UCUMI** | 630x500x500mm
- 1 Radyal matkap / Radial Drilling **STAR** | 400x400x350mm

Köprülü Vinç / Crane

- IMAK 20 Ton** (1 adet/piece) – **5 Ton** (3 adet/pieces) – **3 Ton** (3 adet/pieces)
